

# Danny's Music

## Reason

You don't need a reason to do what's right

You don't need a reason to stand up and fight

You don't need a reason to do what's right

You don't need a reason to fight the good fight

You don't need a reason to do what's right

No matter how far, no matter how faint

No matter how simple, no matter how quaint

You don't need a reason to do what's right

You don't need a reason to fight the good fight

You don't need a reason to fight the good fight
